

## SECURITY INFORMATION & EVENT MANAGEMENT

# 24/7/365 WE'VE GOT YOUR BACK

### IDENTIFY & CORRELATE THREATS SEAMLESSLY

With Charles IT's SIEM monitoring, we identify and correlate threats on your network infrastructure and support compliance guidelines through a fully integrated range of response capabilities.

### BEHIND THE SCENES MONITORING

Our SIEM monitoring provides an active log of risky and malicious behaviors and attacks within your network, without impacting your daily routine. All identified risks are sent to a Security Operations Center (SOC) for review.

### COMPLIANCE REQUIREMENTS

By utilizing Charles IT's SIEM monitoring, you are on track for meeting your compliance requirements under HIPAA, PCI, PII, NERC and more. It also helps you gain and maintain certifications within the International Organization for Standardization.
