Urgent Request

Prev < > Next

Dear friend,

Please accept my donation for your humanitarian work.
Enter your banking information [here](#).

Sincerely,
Your friend

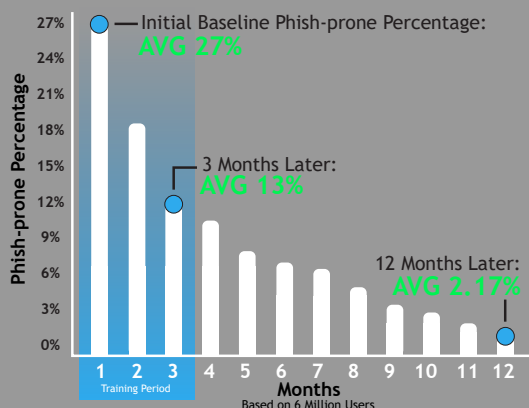

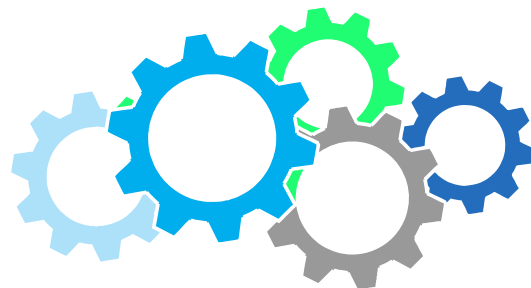

PROTECT YOURSELF FROM THE UNKNOWN

Once attackers gain access to your credentials, they may stay dormant until you forget about revealing your credentials. At this point they can gain unauthorized access to your network and servers.

EMPOWER YOUR TEAM

Once a user clicks on our simulated spam emails they are automatically enrolled in a training program which teaches them what to pay attention to and how to identify fraudulent emails.

REDUCE YOUR EXPOSURE

Industry averages for companies who utilize a Phishing Training program reduce their organization's risk of getting phished by 25% after just one year.
