CHARLES

INTERNAL VULNERABILITY SCANNING

MANY DATA BREACHES ARE ACTUALLY AVOIDABLE

Find vulnerabilities that leave your network exposed to potential hackers and evaluate the criticality of each risk with Charles IT's internal vulnerability scanning.

Networks change and evolve as your business grows, which means the need for **regular reoccurring scanning** is ever present to ensure new holes don't get opened and go unnoticed.

12x scans per year — **Monthly scans & quarterly reports reviewed with your Account Manager**
