

Your Partner in Compliance & Managed Security

Cyber threats evolve by the day—shouldn't your defenses do the same?

Charles IT's Managed Security Services put a dedicated team of cybersecurity experts in your corner. From real-time threat detection to regulatory support, we help you stay ahead of attackers, stay compliant, and stay focused on growing your business.

With Charles IT, you get real protection with zero guesswork.

🔧 Vulnerability Management

Internal and external scans to uncover, prioritize, and remediate risks across your environment, before bad actors can exploit them.

🔧 Proactive Threat Hunting

Eyes on your systems 24/7 to spot suspicious behavior and shut it down fast, because waiting for alerts isn't a strategy.

🔧 Strategic Security Planning

Regular alignment sessions to ensure your cybersecurity posture supports your actual business goals, not just checkbox compliance.

🔧 Regulatory Readiness

Support for frameworks like CMMC, HIPAA, DFARS, ITAR, and more—with the reporting and controls to prove it.

Beyond the Basics

- **Monthly Security Reports** with clear insights, risks, and next steps.
- **Monthly Meetings** with your security team—yes, real humans.
- **Quarterly Deep Dives** into key areas of your tech stack.
- **Remediation SLAs** to ensure threats don't linger.
